| <ul style="list-style-type: none"> <li>REAP Title</li> </ul>          | Establishing a Research-Based Capacity Building Framework (RBCBF) for the Philippine Railways Institute (PRI)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <ul style="list-style-type: none"> <li>REAP Objective</li> </ul>      | This REAP aims to develop and institutionalize a research-based capacity-building framework for the PRI, ensuring competency-driven, inclusive, and sustainable training programs. By integrating research-backed approaches, it enhances PRI's training curricula to align with evolving railway industry standards. The framework will embed Gender Equality, Disability, and Social Inclusion (GEDSI) principles in training design, fostering a more accessible and equitable learning environment for railway personnel. This initiative supports the Department of Transportation's (DOTr) mission of a Comfortable, Accessible, Safe, Sustainable, and Affordable (CASSA) transport system and contributes to national human capital development goals.                                                                                       |
| <ul style="list-style-type: none"> <li>Problem/Opportunity</li> </ul> | <p>The PRI plays a crucial role in developing a competent railway workforce that ensures the safe and sustainable operation of the country's expanding railway network. However, the absence of a structured, RBCBF limits PRI's ability to develop competency-driven training courses. This gap affects evidence-based decision-making, training needs analysis (TNA), and the seamless integration of research into training planning, design, and curriculum development.</p> <p><b><u>Challenges in PRI's Current Capacity-Building Approach</u></b></p> <ul style="list-style-type: none"> <li><b>Limited Research Expertise in Workforce Studies</b> - PRI's Research and Development Division (RDD) lacks dedicated research specialists focused on workforce competency, hindering data-driven improvements in training programs.</li> </ul> |

- **Resistance from Railway Operators (ROs) in Data-Sharing** - ROs hesitate to provide workforce and competency data due to confidentiality concerns, limiting PRI's ability to design training programs that reflect real workforce needs.
- **Perceived Cost and Administrative Burden** - Some ROs see research-driven competency-building initiatives as additional work rather than a long-term investment in workforce development.

#### **Opportunities for PRI's Institutional Strengthening**

- **Enhancing TNA, Training Planning, Design, and Curriculum Development** - An RBCBF will refine PRI's TNA process, ensuring competency-based training aligned with industry needs and evolving railway technologies.
- **Complementing PRI's Ongoing Initiatives** - PRI's collaboration with the Philippine Trade Training Center (PTTC) for the development of Philippine Skills Framework (PSF) and the Commission on Higher Education (CHED) for an Outcomes-Based Education (OBE) curriculum can be further strengthened through an RBCBF, ensuring a research-driven foundation for workforce training.
- **Advancing Gender Equality, Disability, and Social Inclusion (GEDSI) in Training** - As a PRI GEDSI Committee member, I will ensure that the RBCBF integrates inclusive learning strategies, fostering equal opportunities for women, persons with disabilities, and other underrepresented groups in railway training.
- **Supporting PRI's Long-Term Institutional Strengthening** - The RBCBF will serve as a foundation for the proposed Knowledge Management (KM) Section under RDD, ensuring systematic documentation of best practices, research methodologies, and competency assessment data.

#### **Societal Opportunities and Higher RO Participation**

- Research suggests that structured competency-based training improves workforce retention and reduces operational risks in transportation sectors (Kearns, 2019). By engaging with PRI's research-driven training programs, ROs can optimize workforce capabilities, reduce accidents caused by human error, and enhance service reliability.
- A well-structured RBCBF can lead to increased participation in PRI training courses, as ROs will recognize the tangible benefits of competency-based workforce development. Studies have shown that organizations that integrate structured training frameworks experience a 25% higher engagement in professional development programs (OECD, 2020).
- The framework will also promote standardization in railway workforce competencies, aligning with international best practices and making Philippine railway professionals more competitive in the global transport sector.

#### **Strategic Alignment with National & International Development Goals**

- **Philippine Development Plan (PDP) 2023-2028 & Ambisyon Natin 2040** - Strengthening human capital, particularly in

Republic of the Philippines

|                                                                                                                                                                            | <p>transportation and infrastructure, is a core priority, making the RBCBF a key enabler of workforce modernization.</p> <ul style="list-style-type: none"> <li>• <b>Australia's Development Priorities in the Philippines</b> - The RBCBF aligns with Australia's focus on inclusive economic growth and workforce skills development, reinforcing the commitment to sustainable and gender-inclusive capacity-building.</li> </ul> <p>By addressing PRI's research limitations, enhancing training needs analysis, and fostering inclusive learning, this REAP will contribute to a skilled, adaptable railway workforce. In turn, this will lead to improved safety, operational efficiency, and long-term railway sector sustainability.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <ul style="list-style-type: none"> <li>• Description in relation to the Department <ul style="list-style-type: none"> <li>i. Organizational Outcome</li> </ul> </li> </ul> | <p>The primary organizational outcome of this REAP is the Improvement of Service Delivery and Building Competencies. By providing a systematic, evidence-based approach to capacity-building, the REAP will enhance the PRI's training programs and further professionalize the railway workforce.</p> <p><b>Improvement of Service Delivery:</b> The RBCBF will optimize the process of identifying railway personnel's training needs through a research-backed TNA. This will ensure that PRI's training programs are demand-driven, aligned with industry needs, and responsive to emerging trends. A comprehensive and inclusive TNA will provide actionable insights, allowing PRI to develop targeted training interventions that directly address knowledge and skills gaps.</p> <p>Additionally, the RBCBF will integrate GEDSI principles into the training programs. By embedding inclusive learning practices, the PRI will ensure equitable access to capacity-building initiatives for women, IPs, PWDs, and members of the LGBTQIA+ community. This inclusive approach will not only strengthen service delivery but also foster a more diverse and competent railway workforce.</p> <p><b>Building Competencies:</b> The implementation of the RBCBF will enhance the competencies of both the railway workforce and the PRI's personnel. PRI staff will gain improved capability in conducting TNAs, curriculum development, and training program evaluation through research-backed methodologies. Furthermore, the RBCBF will support the development of a more robust and comprehensive PSF for railway personnel, an initiative that PRI is pursuing in collaboration with the PTTC.</p> <p>By aligning with the PSF and the ongoing OBE curriculum development initiative with the CHED, the RBCBF will ensure PRI's capacity-building</p> |

|                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                          | <p>programs remain relevant and aligned with national skills standards. This alignment will promote continuous learning and career progression within the railway sector.</p> <p>Overall, to sustain the gains of the REAP, the RBCBF will institutionalize research-driven decision-making processes in PRI's capacity-building initiatives. The framework will provide a replicable model for future TNA exercises and training design. Moreover, as PRI is proposing the establishment of a KMS by 2027, the RBCBF's data-driven insights will contribute to the KMS's efforts in maintaining a repository of best practices, training evaluations, and industry research.</p> <p>In conclusion, the REAP will enhance PRI's capability to deliver effective, inclusive, and evidence-based training programs. This will ultimately support PRI's mission to shape competent railway personnel and contribute to a safer, more reliable, and efficient railway system. Through strengthened service delivery and improved competencies, the PRI will play a pivotal role in realizing the DOTr's vision of a CASSA transport system, aligned with the PDP 2023-2028 and Ambisyon Natin 2040.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <p>ii. Target Competency Improvement</p> | <p>I am deeply enthusiastic about the competencies I will gain in Australia to maximize the impact of my REAP. My aspiration is to pursue a Master of Human Resource Management (HRM) and Industrial Relations (IR) at the University of Sydney, renowned for its exceptional programs in leadership development, organizational management, and industrial relations. With its emphasis on practical application and research-driven learning, the University offers access to world-class knowledge and insights that are not as readily available in the Philippines.</p> <p>The University of Sydney offers a unique blend of academic rigor and practical application through its industry partnerships and research-driven approach. Its emphasis on evidence-based management practices will significantly enhance my ability to develop and implement the RBCBF for the PRI. Moreover, the program's focus on leadership, talent management, and organizational development aligns with my goals to strengthen PRI's capacity-building efforts.</p> <p>A core competency I aim to develop is strategic human resource management. Through units like "Foundations of HR and IR" and "Human Resource Strategies," I will gain the skills to design and implement capacity-building programs that address the specific needs of the railway sector. These units cover HRM's social, legal, psychological, ethical, and strategic dimensions, equipping me with the analytical tools needed to drive effective HR practices.</p> <p>Additionally, the "HR Data Insights" unit will strengthen my proficiency in data analytics, a critical area identified in the DOTr's TNA. I will learn how to apply evidence-based decision-making to evaluate training outcomes and ensure continuous improvement in PRI's capacity-building programs.</p> <p>The IR component of the program will deepen my understanding of labor relations and employment standards. Units like "Emerging Challenges in IR" and the capstone "HRM and IR in Action" will provide practical</p> |

## RE-ENTRY ACTION PLAN (REAP) FORM

insights into managing complex labor dynamics, ensuring compliance with labor laws, and fostering constructive labor-management relations. This knowledge will enhance my ability to support fair and inclusive workplace practices in the railway sector.

The program's focus on diversity, equity, and inclusion will also be invaluable. Through the unit "Managing Diversity and Inclusion at Work," I will explore best practices in creating inclusive workplaces, which is crucial for ensuring the RBCBF is accessible and equitable. Understanding international approaches to GEDSI integration will help me champion inclusive policies and contribute to PRI's broader goals of promoting social responsibility.

Furthermore, the "Leadership in Organisations" and "Managing Communication in Organisations" units will refine my strategic leadership and communication skills. These competencies will be essential for fostering stakeholder collaboration, navigating institutional reforms, and driving the successful implementation of the RBCBF.

For practical application, I plan to undertake the "Job Smart Edge" unit, which offers hands-on experience in project management and problem-solving. This will enhance my capability to lead projects and manage complex initiatives effectively. Alternatively, the "Organisational Change and Development" unit will provide valuable insights into managing transitions and ensuring sustainable organizational growth.

In conclusion, pursuing this program at the University of Sydney will provide me with the strategic, analytical, leadership, and industrial relations competencies needed to successfully implement my REAP. These enhanced skills will not only contribute to the sustainable growth of PRI but also support the broader goals of the Philippine government in building a safe, inclusive, efficient, and reliable railway system.

- Relation to the Government's Development Plan

This REAP aligns with the Philippine Development Plan (PDP) 2023-2028, which prioritizes infrastructure modernization, digital transformation, and human capital development as key drivers of national progress. Specifically, the establishment of a structured KM system at the PRI supports the government's vision of enhancing the efficiency, sustainability, and safety of the railway sector.

One of the PDP's core objectives under **Chapter 6: Infrastructure Development** is to modernize and professionalize the transportation sector by ensuring that infrastructure projects are supported by competent and well-trained personnel. The KM system will contribute to this goal by improving institutional learning, research capabilities,

|                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                      | <p>and policy development within PRI, leading to more effective training programs and evidence-based railway policies.</p> <p>Furthermore, the REAP aligns with the National Transport Policy (NTP), which emphasizes <u>the need for data-driven decision-making and the integration of knowledge management in transportation planning and operations</u>. By streamlining the collection, storage, and dissemination of critical railway knowledge, PRI can provide policymakers with accurate, updated information to improve railway regulations and operations.</p> <p>This initiative also supports the Digital Transformation Strategy 2022-2028, led by the Department of Information and Communications Technology (DICT), which <u>advocates for knowledge-sharing systems and digital governance in public institutions</u>. Establishing a centralized digital repository for PRI ensures that railway knowledge and best practices are preserved, easily accessible, and continuously updated, enhancing operational efficiency and institutional memory.</p> <p>Additionally, the REAP <u>contributes to human capital development</u>, a key focus of the Philippine Skills Framework (PSF) and the Technical Education and Skills Development Authority (TESDA) Roadmap, <u>by promoting a culture of continuous learning among railway professionals</u>. Strengthening PRI's competencies in knowledge management will lead to better training delivery, skill enhancement, and workforce development, aligning with national goals for an adaptable and highly skilled transport workforce.</p> <p>By aligning with these national development strategies, this REAP ensures that PRI's KM system will not only enhance its internal capabilities but also contribute to the broader goal of modernizing the Philippine railway sector. The structured approach to knowledge retention and dissemination will help sustain long-term improvements in railway training, research, and governance, ultimately supporting the country's sustainable and inclusive transport development agenda.</p> |
| <ul style="list-style-type: none"><li>• Direct Beneficiary</li></ul> | <p>The primary beneficiaries of this REAP are the PRI, ROs, and the railway workforce. PRI personnel, particularly those in the TD, CAD, and RDD, will benefit from a structured, research-based capacity-building framework that enhances their ability to design, implement, and assess competency-driven training programs. By strengthening the link between research, training, and certification, PRI can ensure that its capacity-building initiatives are evidence-based, targeted, and aligned with industry needs. This will improve the effectiveness of TNA, curriculum development, and certification processes, ensuring that railway personnel are trained based on current best practices and evolving industry standards.</p> <p>ROs will also gain from this initiative, as it establishes a standardized approach to capacity-building, reducing skill gaps and ensuring personnel are equipped with competencies that meet operational demands. Resistance from operators in sharing data and adopting research-backed initiatives has been a persistent challenge. However, by demonstrating the direct benefits of a research-based training framework—such as improved workforce competency, reduced</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## RE-ENTRY ACTION PLAN (REAP) FORM

|                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                             | <p>operational risks, and enhanced efficiency – this REAP can encourage stronger collaboration between PRI and railway operators.</p> <p>Ultimately, railway personnel will experience long-term benefits from a more structured and research-driven training system. With improved curricula, competency assessments, and certification standards, employees will receive more relevant and high-quality training that enhances their skills, career prospects, and overall job performance. This initiative supports a professionalized and well-equipped railway workforce, contributing to safer, more efficient, and sustainable railway operations in the Philippines.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <ul style="list-style-type: none"> <li>Gender Equality, Disability, and Social Inclusion (GEDSI)</li> </ul> | <p>The implementation of the RBCBF at the PRI presents a significant opportunity to promote GEDSI within the railway sector. By incorporating GEDSI principles into research, training development, and competency assessments, this initiative will ensure that capacity-building efforts are inclusive and responsive to the needs of marginalized groups, including women, persons with disabilities (PWDs), Indigenous Peoples (IPs), and members of the LGBTQIA+ community.</p> <p>A key strategy is the integration of GEDSI considerations into the TNA and curriculum development processes. Through comprehensive research and stakeholder consultations, PRI can identify barriers to participation in training courses. These insights will guide the design of accessible and inclusive learning materials, ensuring equitable opportunities for all railway personnel. Additionally, training courses will incorporate case studies and scenarios that reflect diverse experiences, fostering greater understanding and sensitivity among trainees.</p> <p>The RBCBF will also promote inclusive participation in training sessions by recommending reasonable accommodations for PWDs, such as accessible learning environments and assistive technologies. Furthermore, PRI will engage marginalized groups and advocacy organizations in validating the framework to ensure their perspectives are represented.</p> <p>By fostering an inclusive learning culture, this REAP will empower underrepresented groups in the railway sector, supporting their career development and encouraging greater workforce diversity. Overall, a more inclusive capacity-building approach will contribute to a safer, more equitable railway system that reflects the needs and contributions of all stakeholders.</p> |

|                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> <li>• Output</li> </ul> | <p>To ensure the effective development of a RBCBF for the PRI, this REAP follows the Input-Process-Output (IPO) model. This structured approach clarifies what resources will be utilized, the key steps in the development process, and the expected tangible outputs.</p> <p><b><u>INPUT</u></b></p> <p>The implementation of the RBCBF will be supported by the following key inputs:</p> <ul style="list-style-type: none"> <li>• Existing PRI Training Data and Policies – Review of PRI’s current training course, competency standards, and certification processes.</li> <li>• Stakeholder Engagement – Consultations with railway operators (ROs), training specialists, policymakers, and GEDSI advocates to gather insights on competency gaps and training needs.</li> <li>• Best Practices from Established Capacity-Building Frameworks – Analysis of international and local workforce competency models such as the Philippine Skills Framework (PSF) and Outcomes-Based Education (OBE) standards.</li> <li>• Research and Literature Review – Examination of existing studies on competency-based training, workforce development, and inclusive learning methodologies.</li> <li>• Feedback Mechanisms – Gathering input from trainers and trainees on the effectiveness of current training programs.</li> </ul> <p><b><u>PROCESS</u></b></p> <p>The REAP will undergo the following step-by-step procedures to develop a structured RBCBF:</p> <p><b>Phase 1: Planning &amp; Initial Engagement</b> - an echo seminar will be conducted to share key learnings from the Australia Awards Scholarship, followed by the drafting of the REAP Implementation Plan and timeline. Consultations with PRI offices and stakeholders will be held to gather insights and align expectations, leading to final revisions and approval by PRI Top Management.</p> <p><b>Phase 2: Pilot Implementation &amp; Continuous</b> - involves drafting a PRI Order to institutionalize the RBCBF, conducting a second round of echo seminars, and pilot-testing the framework in a selected PRI training course. Continuous consultations and feedback from trainers and railway operators will guide refinements to enhance effectiveness.</p> <p><b>Phase 3: Evaluation &amp; Adjustments</b> - data from the pilot implementation will be collected and analyzed to produce an evaluation report with key findings and recommendations. The framework will then be updated based on stakeholder feedback, and a proposal will be submitted for its inclusion in PRI’s 3-Year Research Plan and training development processes.</p> <p><b>Phase 4: Institutionalization &amp; Sustainability</b> - will secure PRI leadership approval for the refined framework, formalizing it through a signed PRI Order. The RBCBF will be fully integrated into PRI’s training and research programs, and a core team will be trained to ensure long-term sustainability and continuous improvement.</p> <p><b><u>OUTPUT</u></b></p> <p>The tangible outputs of this REAP include:</p> <ul style="list-style-type: none"> <li>• Research-Based Capacity-Building Framework (RBCBF)</li> </ul> |

## RE-ENTRY ACTION PLAN (REAP) FORM

- A structured, evidence-based training framework for competency-based training development.
- Includes standardized methodologies, assessment tools, and guidelines for workforce capacity-building.
- Comprehensive Research Report
  - A document detailing data analysis, stakeholder consultations, and best practices.
  - Includes recommendations for improving PRI's training system and policy development.
- Pilot-Tested Training Courses
  - Implementation of the RBCBF in selected training programs.
  - Adjustments made based on trainer and trainee feedback.
- Stakeholder Engagement Strategy
  - A structured plan for ongoing collaboration with ROs, policymakers, and GEDSI advocates.
  - Encourages increased data-sharing and participation in competency-based training programs.
- Policy Recommendations for Institutionalization
  - Proposals for PRI leadership to adopt the RBCBF as a standard for workforce development.
  - Provides guidance on integrating research-driven training processes into PRI's long-term capacity-building initiatives.

By following this IPO framework, the RBCBF will provide PRI with a sustainable, research-backed approach to workforce competency development. This will result in more effective training programs, increased participation from ROs, and better alignment with national workforce strategies. This initiative will strengthen the railway sector's human capital, ensuring a skilled, adaptable, and inclusive workforce for the future.

## II. REAP TIMELINE AND IMPLEMENTATION

### a. Measurability

To monitor the success of my REAP implementation, I will track progress through key milestones using regular assessments, feedback mechanisms, and documentation. Initial activities will involve conducting an echo seminar to share insights from my scholarship and presenting the implementation plan for management approval. A pilot application of the capacity-building framework will follow, with evaluations based on participant feedback and knowledge assessments. Insights gathered will inform adjustments to enhance the framework's effectiveness. Finally, institutionalization will be pursued through a signed PRI Order, integrating the framework into the 3-year research and

|                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                |

| Institutionalize RBCBF into the 3-Year Research Plan of RDD                                                                                                                                                                                                                                                                                                                                                                                         | Signed 3-Year Research Plan                                                                                                                                                                                               |                 |
| Integrate RBCBF into the TD processes                                                                                                                                                                                                                                                                                                                                                                                                               | Revised PRI Order re: TD processes                                                                                                                                                                                        |                 |
| Provide training to a core team of PRI personnel to ensure sustainability of the RBCBF                                                                                                                                                                                                                                                                                                                                                              | Trained core team                                                                                                                                                                                                         |                 |
| d. Target Date to Start                                                                                                                                                                                                                                                                                                                                                                                                                             | The implementation of the REAP will commence three months after returning from the Australia Awards Scholarship to allow for initial preparations, stakeholder coordination, and alignment with institutional priorities. |                 |
| e. Target Date to End                                                                                                                                                                                                                                                                                                                                                                                                                               | The REAP is expected to be fully implemented within two years from its start date, ensuring a structured and sustainable rollout of initiatives.                                                                          |                 |
| III. RESOURCES                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                           |                 |
| The implementation of this REAP will be effectively achieved by utilizing existing government resources, ensuring cost-efficiency without the need for additional financial expenditures. Since the initiative focuses on enhancing the alignment between research and training through a capacity-building framework, the majority of activities are well within the scope of my current responsibilities as a Training Specialist III at the PRI. |                                                                                                                                                                                                                           |                 |

The proposed REAP implementation will leverage PRI's internal expertise, engaging personnel from the RDD and the TD to support the project. Existing mechanisms such as regular coordination meetings, working group sessions, and internal consultations will facilitate collaboration without incurring extra costs. Additionally, PRI's training rooms, office facilities, and digital platforms will be used for workshops, echo seminars, and capacity-building sessions.

Institutional support will be sought from PRI Top Management to ensure seamless integration of the REAP into PRI's processes. The alignment of research findings with training programs will be reinforced by embedding the framework into PRI's 3-Year Research Plan and its training planning, design, and curriculum development processes. Furthermore, PRI's administrative resources will be sufficient to manage documentation and evaluation activities.

To sustain the REAP's gains, policy endorsement through a signed PRI Order will be pursued. This will formalize the capacity-building framework and ensure its continuous implementation. By effectively utilizing existing resources and aligning activities with current functions, the implementation of this REAP will be both practical and impactful without requiring external funding.

#### IV. COMMENT(S) AND RECOMMENDATION(S)
