	Document No: <u>DOTr-HRDD-Forms-004</u> Rev. No.: <u>001</u> Effective Date: <u>03 August 2022</u>
	RE-ENTRY ACTION PLAN (REAP) FORM

INSTRUCTIONS: This form is used in preparing a proposed Re-entry Action Plan in applying to a Scholarship Program. Duly accomplished and signed forms will be submitted to the HRD Division along with the other documentary requirements.

Title of Scholarship Program:	JDS 23rd Batch Scholarship Program
Name of the Development Partner	Japan International Cooperation Center

I. REAP BACKGROUND AND INFORMATION	
a. REAP Title	Evaluating the Institutional Capacity of the Department of Transportation's ("DOTr") Gender and Development ("GAD") Technical Working Group ("TWG") in Advancing Gender Equality, Responsiveness, and Inclusivity in the Philippine Transportation System.
b. REAP Objective	To assess the institutional capacity and knowledge of the DOTr's GAD TWG in Gender Equality, Responsiveness and Inclusivity in the Philippine Transportation System using the Department Order ("DO") No. 2012-09 entitled "Implementing Rules on the Harmonized GAD Guidelines for Project Development, Implementation, Monitoring and Evaluation"
c. Problem/Opportunity	The Department of Transportation and Communications ("DOTC") issued a DO No. 2012-05 entitled "Mainstreaming Gender and Development in the Transportation Sector (Policies, Plans and Programs/Activities/ Projects) and Strengthening the GAD Focal Points in the DOTC in the DOTC-Central Office, its Project Offices, Regional and Sectoral Offices and Attached Agencies and Corporations" last 12 March 2012. In this DO, DOTC aims to institutionalize and mainstream GAD in the National Transportation Plan and in the Annual and Medium-Term Programs, Activities and Projects of the DOTC-Central Office ("CO"), its Project Management Offices ("PMOs"), Regional and Sectoral Offices and Corporations. Also, this DO pursues the establishment and operationalization of GAD National Task Force/GAD Focal Point/ GAD TWG. To fully achieve and support mainstreaming of GAD on Gender Equality, Women Empowerment and Gender Responsiveness, DOTC issued another DO No. 2012-09, the development of Harmonized GAD Guidelines. This DO is designed to serve as a guideline for all DOTC personnel involved in transportation infrastructure projects across various phases, including identification, design and formulation, management and implementation, and monitoring and evaluation. This will be used by the Planning Service, Project Management Service, Project Monitoring and Evaluation Service and its Project Management Office to ensure that all GAD programs/activities/projects from project identification, design and formulation, management and implementation, and monitoring and evaluation are Gender

Responsive.

As one of the implementing mechanisms of the DO No. 2012-05, GAD Focal Point and TWG are expected to monitor the compliance of projects/activities/programs to the Harmonized GAD guidelines and to submit findings and recommendation to DOTC-CO (Office of the Secretary) for endorsement to the Philippines Commissions on Women.

However, due to unforeseen changes in the constitution of the GAD TWG over the years, the institutional knowledge and expertise of former members were not adequately transferred to the current members. Consequently, the responsibilities and mandated functions outlined in Department Order No. 2012-09, which are essential to the advancement of the Department's GAD initiatives, have not been fully implemented or adhered to. This results in increased safety risks in terms of harassment and violence due to poorly designed and unmonitored transportation spaces and unsafe transportation infrastructure for women passengers. Additionally, the lack of gender sensitive planning of transportation systems leads to limited accessibility facilities that are responsive to the women's specific needs like adequate safety measures, facilities for pregnant women or accommodations to women travelling with children.

As mandated by Republic Act No. 9710, also known as the "Magna Carta of Women," particularly Section 37(a), at least five percent (5%) of the total budget appropriations of an agency or LGU must be allocated to activities supporting GAD Plans and Programs. However, this Department has been unable to effectively plan and implement GAD initiatives to utilize the allocated 5% budget. This shortfall has resulted in missed opportunities to allocate funds toward the promotion and enhancement of gender-responsive, inclusive, and sensitive transportation systems.

As a result of these missed opportunities to enhance a gender-responsive, inclusive, and sensitive transportation system, various studies have been conducted to explore the commuting experiences of women. A research project was developed by JICA entitled "Examining Women's Commuting Experience in Urban Philippines: A Photovoice Exercise on Human Security Developed". This research begins by utilizing Photovoice, a photography-based research method that empowers participants to capture images reflecting their personal experiences and perspectives on daily commuting. Its results showed that most participants (66.67%) negatively perceived their daily commute. The interviews disclosed that the participants experienced "overcrowding", "discomfort" and "stress" and among other things. Study participants also raised personal security issues, including harassment, assault, and violence as the main challenge of their commute. Participants also mentioned their unsafe experiences including being coerced into paying a higher fixed fares, receiving unwanted looks from men while using the public transportations, bag snatching and groping in public vehicles.

The findings of this study will evaluate the current GAD TWG's understanding of Gender Equality, Responsiveness, and Inclusivity within the Philippine Transportation System, using DO No. 2012-09 as a framework. It will also identify the capacity-building initiatives needed to deepen their knowledge and develop expertise. This assessment could

	RE-ENTRY ACTION PLAN (REAP) FORM

	also identify the gaps in achieving successful and sustainable GAD implementation. This will enable the Department to uphold its commitment to providing a Comfortable, Accessible, Safe, Sustainable, and Affordable ("CASSA") transportation system.
d. Description in relation to the Department i. Organizational Outcome	In this specialized training program, the following organizational outcomes will be addressed by this REAP, Enhancement of Service Delivery. This Department has always been committed to delivering a CASSA transportation system. A transportation system that supports a Gender Equality, Inclusivity and Responsive environment. Given that the applicant handles and manages multiple Railway Projects in the Project Development Stage, this REAP will equip the applicant on the administration and best practices of other countries in terms of GAD initiatives which can be applied to the upcoming Railway Projects. Building Competencies. One of the core mandates and functions of this Department is to promote, develop, and regulate a reliable and well-coordinated transportation network. This includes ensuring a transportation system that is easily and comfortably accessible to everyone. Through this REAP, the GAD TWG will enhance their knowledge, enabling them to contribute their expertise to future railway projects.
ii. Target Competency Improvement	The content of this training program will enhance my knowledge in; Insights on Government Operation. This training program will provide the applicant with a comprehensive understanding of the various operations and processes within government branches. It will also familiarize the applicant with the accountability and responsibilities inherent in public service. Improve Policy Development and Formulation. This training program will increase the ability of the applicant in analyzing, designing and formulating policies that society needs. The applicant's problem solving skills and decision making will be improved by learning the different best practices of other countries. Enhancement of Service Delivery. This training program will broaden the applicant's understanding of the diverse needs of the public, with a focus on improving and addressing these needs effectively. Improve Leadership and Responsibility. This training program will introduce the applicant on the different principles in ethics, integrity and responsibility in the public. This applicant will be prepared to handle leadership tasks. Introduction to Social Equity. This training program will broaden the applicant's knowledge in social inclusivity and equality. This will improve the applicant's prioritization on social issues and needs.

	The competencies that will be gained during the training program will guide the applicant to understand and properly execute the REAP.
e. Relation to the Government's Development Plan	The Philippine Development Plan 2023 - 2028 ("PDP") was formulated to plan for a deep economic and social transformation by steering the economy back on a high growth path. In Chapter 12 Expand and Upgrade Infrastructure of the PDP, Gender Mainstreaming, inclusion and accessibility should be one of the main considerations in all aspects of project implementation. Harmonized GAD Guidelines should be integrated in all phases of the infrastructure project development and implementation. Subsequently, the objective of the applicant's REAP is fully aligned with and supports the PDP. Furthermore, the Department's mandate, functions, as outlined in DO No. 2012-05 and DO No. 2012-09, as well as its commitment to delivering a CASSA transportation system that is gender-responsive, inclusive, and equitable, are also in alignment with the objective of the applicant's REAP.
f. Direct Beneficiary	The GAD TWG will be the first to benefit from the immediate advantages of the REAP's implementation. The GAD TWG will undergo an assessment using an Assessment Toolkit developed by the applicant. Through this toolkit, the members will identify gaps and areas for improvement, enabling them to deepen their knowledge and achieve expertise. Once the GAD TWG attains expertise and is equipped to provide guidance on gender inclusivity in transportation projects, DOTr personnel involved in Planning Service, Project Management Service, Project Monitoring and Evaluation Service, and the Project Management Office can seek their expertise to ensure the development of gender-inclusive and responsive transportation projects across the country.
g. Gender Equality, Disability, and Social Inclusion (GEDSI)	The primary objective of this REAP is to ensure that women experience gender equality, responsiveness, and inclusivity. As such, GEDSI will be the top priority of this REAP. This study aims to enhance the effectiveness of the GAD TWG, ultimately leading to improved planning, development, and implementation of transportation projects that incorporate GAD considerations.
h. Output	Upon completion of the training program, the applicant will develop an Assessment Toolkit to assess the current GAD TWG's understanding of Gender Equality, Responsiveness, and Inclusivity within the Philippine Transportation System, using DO No. 2012-09 as a framework. Following the evaluation results, if needed, the applicant will organize capacity-building training for the GAD TWG, focusing on enhancing the group's expertise. By strengthening the expertise of the GAD TWG, transportation infrastructure projects will be ensured to thoroughly address and prioritize GAD throughout the entire project life cycle. Additionally, to promote its sustainability, the participant will provide recommendations in institutionalizing the processes of GAD TWG.
II. REAP TIMELINE AND IMPLEMENTATION	
a. Measurability	To ensure that progress of the implementation of this REAP is on track, the output will be measured in the following milestones, At 25%, the Applicant will develop an Assessment Toolkit, using DO No. 2012-09 as a framework. Also, research and data shall be gathered from relevant references and best practices of experts to ensure a comprehensive toolkit.

 	Republic of the Philippines Department of Transportation
	Document No: <u>DOTr-HRDD-Forms-004</u> Rev. No.: <u>001</u> Effective Date: <u>03 August 2022</u>
	RE-ENTRY ACTION PLAN (REAP) FORM

	b. At 50%, the Applicant will evaluate the current GAD TWG's understanding of Gender Equality, Responsiveness, and Inclusivity within the Philippine Transportation System using the formulated Assessment Toolkit. c. At 75%, the Applicant will organize Capacity Trainings and Workshop based on the result of the Assessment Toolkit to address the gaps and weaknesses of the GAD TWG and develop expertise. d. At 100%, a significant increase in budget allocation for GAD initiatives will be observed.	
b. Sustainability	The competencies of the current GAD TWG, after strengthening their institutional capacity, will serve as a valuable asset to the Department. They will be able to offer guidance and share their expertise for upcoming transportation projects. Additionally, the knowledge and skills of the current members will be passed on to new members, ensuring the sustainability of the expertise within the Department.	
c. Predictive Action Steps with Identified Success Indicators		
i. Phase/Stage	ii. Expected Output	iii. Timeline
1. The Development of Assessment Toolkit by the Applicant.	1. Assessment Toolkit	1. 2 Months to 3 Months
2. The evaluation of GAD TWG knowledge Gender Equality, Responsiveness, and Inclusivity in the Philippine Transportation System.	2. Evaluation Report	2. 3 Months to 4 Months
3. Organization of Capacity Training (if needed)	3. Capacity Trainings	3. 2 Months to 3 Months
d. Target Date to Start	2027	
Target Date to End	2028	
III. RESOURCES		
All budgetary requirements for the effective implementation of this REAP, particularly the allocation for Capacity Trainings and Workshops, will be sourced from the mandated 5% budget allocation for GAD initiatives, as stipulated in Republic Act No. 9710, Section 37(a).		
IV. COMMENT(S) AND RECOMMENDATION(S)		
a. Immediate Superior (Mentor)		
b. Head of the Office/Division/Service
